

Appl. No. 10/713,140
Amdt. dated April 29, 2005
Reply to Office Action of March 2, 2005

PATENT

REMARKS/ARGUMENTS

This is in response to the Office Action Summary mailed March 2, 2005. In the Office Action, the Examiner restricted the claims into two groups:

Group I: Claims 1-27 drawn to an amplifying circuit connected to the secondary winding of a transformer, classified in class 330, subclass 165; and

Group II: Claims 28-40, drawing to a noise reducing apparatus for a power supply, classified in class 363, subclass 39.

The Applicant elects Group II, including Claims 28-35 and 38-40, without traverse for prosecution in the present application. Applicant cancels claims 1-27. Applicant, at this time, cancels claims 36 and 37 because of the reference to claims 24 or 26. However, Applicant notes that claims 36 and 37 are part of Group II. Applicant thus reserves the right to add as new claims the subject matter of claims 36 and 37 if the language of claims 24 or 26 are incorporated into the body of claims.

CONCLUSION

Applicant believes all claims now pending in this Application are in condition for allowance. The issuance of a formal Notice of Allowance at an early date is respectfully requested.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 858-350-6100.

Respectfully submitted,

Raymond B. Hom
